

1980 Census of Population and Housing

PHC80-P-34

NEW YORK

Preliminary Population and Housing Unit Counts

This report is based on preliminary counts of population and housing units as compiled in the 1980 census district offices. The series consists of 56 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 56 for Puerto Rico, Guam, Virgin Islands, and American Samoa. Preliminary counts for the Northern Mariana Islands and the remainder of the Trust Territory of the Pacific Islands are not part of this series of reports. These counts will be made available in a separate press release issued for each area.

As of April 1, 1980, the population of the State was 17,507,541, according to a preliminary count of the returns of the 1980 census. This figure represents a decrease of 733,850, or 4.0 percent, from the 18,241,391 inhabitants enumerated in the 1970 census.

The preliminary count of housing units in the State as of April 1, 1980, was 6,863,845. This figure, which includes both occupied and vacant housing units, represents an increase of 564,161, or 9.0 percent, from the 6,299,684 units enumerated in the 1970 census.

An increase in the housing unit count is not inconsistent with a decrease in population as the average number of persons per occupied housing unit (or household) has declined since 1970.

This report presents preliminary 1980 census population and housing unit counts for the State, counties, county subdivisions, incorporated places, standard metropolitan statistical areas (SMSA's), and congressional districts.

For SMSA's which have component parts in another State(s), data shown in this report relate only to this State's portion. For the remainder of the SMSA data, see the appropriate State(s) report.

These preliminary figures will be superseded by the final counts to be shown in Advance Reports, series PHC80-V, which will be issued within the next few months. The final counts are subject to further processing and review and may differ from the preliminary figures.

An outline of the publication and computer tape program for the 1980 Census of Population and Housing can be obtained free of charge from the Data User Services Division, Bureau of the Census, Washington, D.C. 20233.

Symbols used in tables. A dash "--" represents zero. Three dots "..." means not applicable, and "(NA)" means not available. The prefix "r" indicates that the count has been revised since publication of 1970 census reports.

¹Population counts for congressional districts are based on 1970 census complete-count data; housing unit counts are based on 1970 census sample data. These counts may not add to State totals because of post-1970 census corrections which were not assigned by congressional district and also because of sampling variability for housing unit counts.

Because of late changes in the data, the population and housing unit counts for 1980 shown in the tables of this report for the following areas are superseded by the numbers below. Changes to these areas may affect the totals for the higher levels of geography in which they are located.

current population reports

P-20 POPULATION CHARACTERISTICS.

Current national and, in some cases, regional data on geographic residence and mobility, fertility, education, school enrollment, marital status, numbers and characteristics of households and families, and persons of Spanish origin. Approximately 20 reports each year.

P-23 SPECIAL STUDIES.

Reports on methods, concepts or specialized data. Included in the series is an annual report on the Black population and periodic reports on the metropolitan-nonmetropolitan population, American youth, the older population, and other topics.

P-25 POPULATION ESTIMATES AND PROJECTIONS

Monthly estimates of the total population of the United States; annual mid-year estimates of the population of States by broad age groups, and of the United States by age, race, and sex; annual estimates of the components of population change. Estimates of the population of selected metropolitan areas and their component counties. Projections of the future population of the United States and individual States. Approximately 70 reports each year.

P-26 FEDERAL-STATE COOPERATIVE PROGRAM FOR POPULATION ESTIMATES.

Population estimates for counties for

selected States in which the figures are prepared by a State agency as part of the Federal-State Cooperative Program for Local Population Estimates.

P-27 FARM POPULATION.

Data on the size and selected characteristics of the farm population of the United States. Issued jointly with the Economics and Statistics Service, U.S. Department of Agriculture. One report each year.

P-28 SPECIAL CENSUSES.

Results of population censuses taken at the request and expense of city or other local governments. Subscription includes only the biannual summaries showing the total population figures for all the censuses conducted during the particular period. Individual reports issued for areas of 50,000 or more, showing the population by age, sex, and race, are available separately. See "How to Order Reports."

P-60 CONSUMER INCOME.

Information on the proportions of families, individuals, and households at various income levels. Data are also presented on the relationship of income to age, sex, race, family size, education, occupation, work experience, and other characteristics. A

special annual report provides detailed information on low-income families and individuals. Five reports each year.

HOW TO ORDER REPORTS

Current Population Reports are sold as two separate subscriptions. Series P-20, 23, 27, and 60 (Population Characteristics, Special Studies, Farm Population, and Consumer Income) cost \$70 a year (add \$17.50 for foreign mailing). Series P-25, 26, and 28 (Population Estimates and Projections, Federal-State Cooperative Program, and Special Censuses) cost \$90 a year (add \$22.50 for foreign mailing). (Series P-28 includes biannual summaries only).

In addition to the findings of the Census of Population, conducted every 10 years, the Bureau of the Census publishes continuing and up-to-date statistics on population counts, characteristics, and other special studies on the American people. Data are issued in the seven separate series of reports described here and are released under the general title, Current Population Reports.
